

TransTracker® indicators are no longer supplied within your shipment

WHY: CSL Seqirus has certified the packaging for this shipment to ensure that your products remain within acceptable shipping temperature range for up to 2 days (48 hours in transit).

How to confirm vaccine shipment is “**Acceptable**” for use:

1 Open Shipment Immediately

A The products within this shipping container are temperature-sensitive and must be protected from prolonged exposure to temperatures outside of their specified range.

B Products should remain cool to the touch upon unboxing.

2 Check the Shipping Information

A Check the shipping label for “ship date” to ensure vaccine was received within 2 days at your location.

B The packing slip can also be used to verify if the vaccine was received within the 2-day transit window.

3 Refrigerate

A Please refrigerate your product immediately. Store product refrigerated at 2 °C to 8 °C (36 °F to 46 °F).¹⁻³

***Do not freeze.**

***Protect from light.**

***Do not use after expiration date.**

EXPERIENCING DELIVERY ISSUES?

If you would like to report an issue with your shipment, scan the QR code and follow the step-by-step instructions.

QUESTIONS?

For any questions, please email flu360 Customer Service at customerservice.us@seqirus.com.
